Safe Patient Handling and Mobility Conference and Webinar

**Capitol View Building, 1st Floor Conference Rooms
201 Townsend Street, Lansing, MI 48913**

**Wednesday, May 13, 2015
8:30 a.m. – 11:30 a.m., EST**

Lifting and moving patients can result in injuries to patients and the nurses who care for them. More than just an inconvenience, these injuries can produce lasting effects and end a career in direct patient care. Patient and nursing safety can be improved with the adoption of Safe Patient Handling and Mobility (SPHM) programs and associated culture change in patient care environments.

As National Nurses Week concludes, the Michigan Department of Health and Human Services, Office of Nursing Policy together with ANA-Michigan is offering a free continuing education program for nurses, available both in-person and via Webinar. Experts will provide an overview of interprofessional national standards for SPHM and associated resources, the impact of SPHM on patient and provider safety and strategies for implementing the standards in patient care settings.

- Learn interprofessional national standards for safe patient handling and mobility.
- Better understand the impact of safe patient handling and mobility on patient and nursing safety.
- Discover how to incorporate and employ safe patient handling and mobility standards in your workplace to improve patient and nursing safety.

Attend this informative webinar and earn *free* CE credit.

Registration is limited to capacity for both live conference and webinar and will be handled on a first come, first served basis.

Registration ends on May 12, 2015, or when capacity is reached.

Register today!

Additional Information for those unable to attend on May 13, 2015.

There will be an additional opportunity to view the webinar (course) and gain continuing education (CE) credit. The recording will be posted to MI-TRAIN <https://mi.train.org/DesktopShell.aspx> as soon as continuing education approval is received and will be available for CEUs for 30 days. The dates will be announced. Registration for the recorded webinar will be available once the course opens and the course will be accessible following the creation of a free account.

Attendees are able to receive contact hours, for Safe Patient Handling and Mobility Webinar, which will be awarded to nurses who individually register and successfully complete the webinar. Each attendee must complete the webinar and associated evaluation, thus earning their contact hours.

This activity has been submitted to the Ohio Nurses Association for approval to award contact hours. The Ohio Nurses Association (OBN-001-91) is an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.
